INSTALLATION INSTRUCTIONS

MIRROR

鏡子組

- 1. Draw a horizontal line on appropriate position by a spirit level and mark 2 drilling positions by hole centers of bracket with 160mm on line.
 在適當位置用水平尺化一横線,用背板標出中心距離160MM的兩個鑽孔位置點。
- 2. Drill the holes in marked positions by a 1/4 inch drill-bit to a depth of 50mm. 當安裝在水泥牆時,使用1/4英吋鑽頭,鑽孔深度5公分。
- 3. Fix Bracket on wall and check leve before hang the Mirror on Bracket. 安裝背板固定,並確認水平後將鏡子平掛於固定背板上。
- 4. Plug in power supply (available for 100~240V), and operate by Sensor. 插上電源(全電壓),將手靠近感應處即可發亮.
