

Two-Handle Wall-Mounted Basin Faucet 6975-92-81CP

INTRODUCTION:

The aim of these basin faucets is an improved balance of the elements. Their design reinterprets the familiar linear handles and cross handles with regard to different user behaviour.

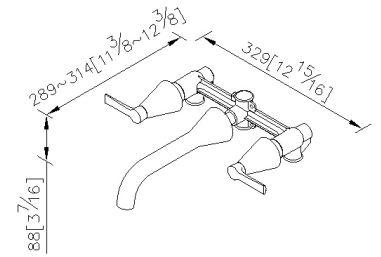

They are designed with three flat lines and one arched line for an elegant look and a comfortable tactile experience. The basin faucets integrate easily into classic elegant and modern living environments, where they represent an exquisite lifestyle.
