INSTALLATION INSTRUCTIONS

Three Handle Bathtub Faucet

浴缸龍頭安裝說明

PATENT NUMBER:
專利號碼:
D120297
D129233

1. Drill 5 holes on appropriate position as Fig.1 shown.
如 Fig.1 所示在適當的位置鑽4個孔。

2. Disassemble **Washer**, **Lock-Nut** and **Adaptor** from **Spout Connector**. Disassemble **Cap**, **Set screws**, **Handles** and **Valve-Nuts** from **Valves**. Disassemble **Lock-Nuts** and **Washer** from **Base** before installation as fig.2 shown.
如 Fig.2 所示，組裝前將墊片，螺帽及轉接頭從出水口連接管拆下。將裝飾蓋，埋頭螺絲，把手及螺帽從閥體拆下。將固定螺帽及墊片從基座上拆下。

3. Insert the **Valve Bodies** and **Diverter Body** from underside of deck through the ø35mm(1.38") holes, fasten the **Valve-Nuts**, and then secure the **Valve Bodies** and **Diverter Body** by tightening the **Lock-Nuts** with **Washers** as Fig.3 & Fig.4 shown .
如 Fig.3 與 Fig.4 所示將閥體從下方穿過Ø35mm(1.38")的孔並且鎖入閥體螺帽，然後鎖緊固定螺帽和墊片來固定閥體。

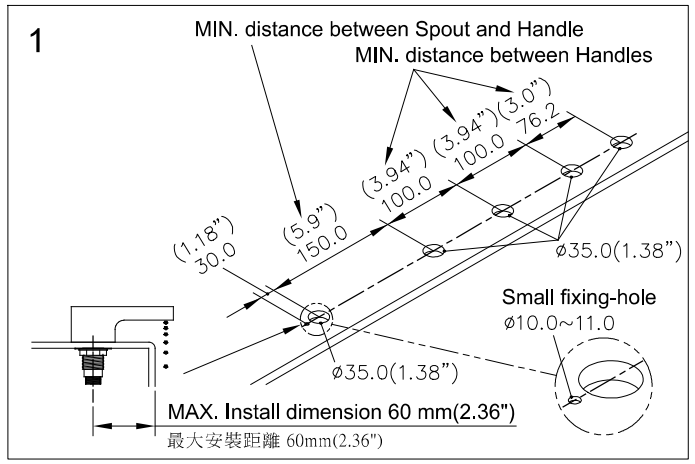
4. Insert the **Connector** through the ø35mm(1.38") hole, aim to position with the small fixing-hole, and then secure **Spout Connector** by tightening **Lock-Nut** with **Washer** and make sure **O-ring seal** be installed into **Spout Connector** totally after assemble Adaptor as Fig.3 & Fig.4 shown .
如 Fig.3 與 Fig.4 所示將連接管穿過Ø35mm(1.38")的孔並且定位在小定位孔，然後鎖緊固定螺帽和墊片來固定連接管，並且在裝好轉接頭之後確認O-ring 整個被裝入出水口連接管裡。

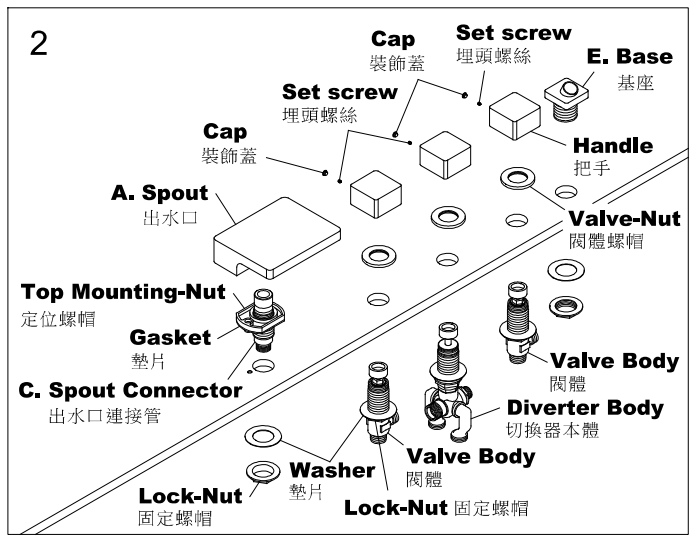
5. Place the **Base** down into the ø35mm(1.38") holes and secure by tightening the **Lock-Nut** with **Washer** as Fig.3 & Fig.4 shown .
如 Fig.3 與 Fig.4 所示將基座放在Ø35mm(1.38")的孔上並且鎖緊固定螺帽和墊片來固定基座。

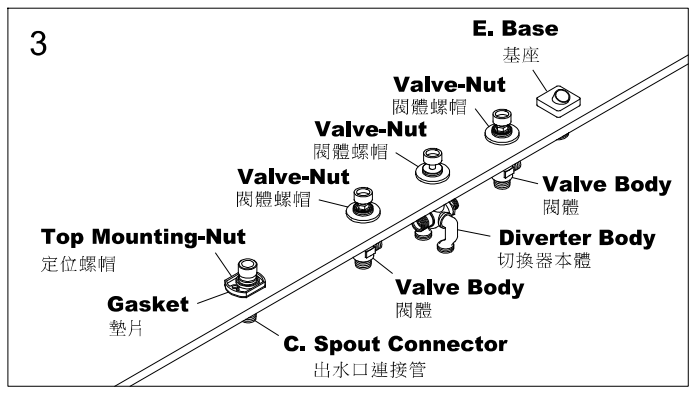
6. Connect **Valve Bodies** to water supplies with **Braided Hose (G1/2*G3/4)**. Connect **Diverter Body** to **Valve Bodies** and **Spout Connector** with **Braided Hose (G3/4*G3/4)**. Connect **Diverter Body** to **Hand Shower** with **Braided Hose (30cm)** and **Shower Hose**.
如 Fig.5 所示用不鏽鋼軟管(G1/2*G3/4)連接閥體到供水開關。用不鏽鋼軟管(G3/4*G3/4)連接切換器本體到閥體及出水口連接管。用不鏽鋼軟管(30cm)及蛇管連接切換器到手持花灑。

7. Locate **Spout** onto **Spout Connector** and make sure the **Pillar** under **Spout** has been inserted into the hole of **Top Mounting-Nut**, and then tighten **Set Screw** and cover the hole with **Cap** as Fig.6 shown.
如 Fig.6 所示將出水口安裝在出水口連接管上並確定出水口的柱子有裝進定位螺帽的孔，然後鎖緊埋頭螺絲並用裝飾蓋蓋住螺絲孔。

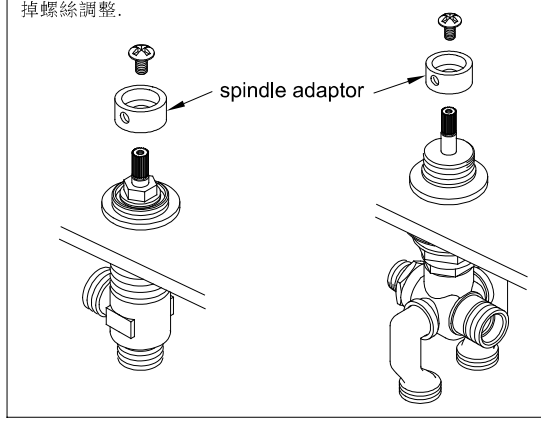
8. Locate **Handles** onto **Valves**, tighten **Set Screws** into the hole (which located on spindle adaptor) as below shown, and then cover the handle holes with **Cap** as Fig.6 shown.
如 Fig.6 所示將把手安裝在閥體上然後埋頭螺絲對準洞鎖緊並用裝飾蓋蓋住螺絲孔。







Adjust the hole on spindle adaptor to face to front or rear side before fix handle on.
The spindle adaptor could be reassembled if necessary.
安裝前請確認閥體上的孔對著正前方或是後方，不然也可以鬆掉螺絲調整.



Recommended Size of Repairing Space.
維修孔箱建議尺寸如圖示
